JUDICIAL NOTES.

Order for Sale of Land—Marine Labeled for Sugar.

Before Judge Cooper to-day a petition was granted to allow the sale of real estate belonging to the Newton minors, and Henry Smith was appointed commissioner to sell the land, with limitations as to the price. C. W. Ashford for petitioner, Agatha T. Scott and Thomas Scott vs. Charles T. Gulick, guardian of A. A. Duiron, bill to cancel deed, was taken under consideration by Judge Cooper after argument to-day. C. W. Ashford for plaintiff; W. A. Kinney for defendant.

A citation has been issued to the Inter-Island Steam Navigation Company at the suit of the Hawaiian Sugar Company, claiming \$123.60 damages by libel for the loss of 1400 bags of sugar in the sinking of the schooner Mary E. Foster by the steamer Mikahala. Paul Neumann and Wm. Foster are proctors for libellant. The libel is sworn to by W. G. Irwin, treasurer of the Hawaiian Sugar Company.

To Purify Water.

Dr. Loffmann recommends to housewives a simple means of precipitating turbid water by the use of a solution of alum. One hundred and thirty grains of crystallized alum dissolved in one pint of water will produce a large quantity of the purifying liquid, as it is only used in the proportion of one to two grains of alum to a gallon of water. That would require three teaspoonfuls of the solution to every two gallons of water. After stirring it in let the water stand a few hours, and it will be perfectly clear and ready to be poured off from the thick deposit in the bottom. If it is then filtered it will be in good condition for drinking. Even without filtering it will be safe to drink the water if it has not stood very long, as it has been found that the addition of the alum greatly reduces the number of bacteria. The taste is not affected, as the alum decomposes in the water, and sets free compounds that attach themselves to the muddy elements in the water and cause them to settle. This remedy is not for contaminated water, which should always be boiled.—New York Evening Post.

Report Contradicted.

A report was circulated this morning that the S. S. Warrimoo, when coming out of Victoria harbor, met the San Francisco steamer but would not wait to get the mails. Purser Munro of the Warrimoo, having heard this report, called at the BULLETIN office to emphatically deny it. The Warrimoo waited two hours and a half for the S. S. City of Puebla, which arrived at 6 a. m., and having got what mails that steamer had failed for Honolulu half an hour later. Mr. Munro had taken particular pains to secure all mails within reach.

Our Water Supply.

The rain gauge at the Electric Light Station, Nuuanu Valley, registered one-eighth of inch last night. It rained but little in the valley, although it poured for a while in town. The reservoirs to-day stand as follows: No. 1, three feet; No. 2, dry; and No. 3, four feet four inches.

Last June, Dick Crawford brought his twelve-month-old child, suffering from infantile diarrhoea, to me. It had been weaned at four months old and being sickly everything ran through it like water through a sieve. I gave it the usual treatment in such cases but without benefit. The child kept growing thinner until it weighed but little more than when born, or perhaps ten pounds. I then started the father to giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. Before one bottle of the 25 cent size had been used, a marked improvement was seen and its continued use cured the child. Its weakness and purry constitution disappeared and its father and myself believe the child's life was saved by this remedy. J. T. MARLOW, M. D., Tamaroa, Ill. For sale by all dealers. RAILROAD BOOM BEGINS.

Construction of Line to Kahuku Begins at Once.

The Oahu Railway & Land Co. have been successful in placing sufficient bonds to enable them to extend the railway line to Kahuku. A. S. Feek arrived on the S. S. Warrimoo this morning from Vancouver and will begin work to-morrow morning on the extension. B. F. Dillingham, manager of the railroad company, was seen by a BULLETIN reporter. He was evidently pleased with his success. "Yes," he said, "we have been very successful. Sufficient lumber has already been bought to make three cargoes. Half of the ties to be used will be cedar wood, and that will be purchased at the Coast. The other half will be oak wood, and will be bought from Allen & Robinson. In all 120,000 ties will be used in laying the extension. The distance from the present terminus to Kahuku is 51 miles, and when completed the main line of the railroad company will cover a distance of 72 miles altogether. It will be a first class road bed, laid to sustain the utmost traffic possible, because I believe the traffic will be much heavier in future. Steel bridges will be constructed and everything about it will be first class."

A. S. Feek, the gentleman who has just arrived to superintend the construction, is a son of Mr. A. Feek, the contractor.

Strange Anagrams.

The Dublin Freeman's Journal has the following: It is not generally known that Mr. John Burns, M. P., is a maker of anagrams. On Monday night he conceived the ingenious idea of dissecting and re-arranging the words "Rosebery-Ladas." The result was startling and unexpected—"As a Derby loser." All the same, Mr. John Burns had better not take the tip in his anagram, for Lord Rosebery's luck seems very well in at the present time. Another ingenious individual—a Dublin man—has made the anagram—Rosebery—Ladas—"bad loser's year."

Chamberlain's is the best of all. Vincent J. Barkl, of Danbury, Iowa, has used Chamberlain's Cough Remedy whenever in need of a medicine for coughs and colds, for the past five years and says: "It always helps me out. If anyone asks me what kind of cough medicine I use, I reply, Chamberlain's, that is the best of all. 25 and 50c. bottles for sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands."

ARRIVAL OF THE WARRIMOO

She Brings Goodly Passengers and Freight Lists.

The Canadian-Australian liner Warrimoo, Captain Bird, R. N. R., arrived this morning from Vancouver, via Victoria. Purser Munro reports as follows: Left Vancouver on the 16th inst. at 7 a. m. and Victoria at 6:45 p. m. Experienced very fine weather with high variable winds and arrived off Diamond Head at 7 a. m. to-day. She brought twelve cabin and thirteen steerage passengers besides 423 tons of freight for this port. The Warrimoo leaves some time this afternoon for Sydney via Suva, Fiji. There were seven stowaways on the boat. With the exception of two they were all locked up and taken on to the Colonies. The two who, if satisfactory arrangements cannot be made with the authorities whereby they can stay.

United States Troops Ashore.

The Philadelphia men were landed for shore drill at 9 o'clock this morning. The flagship band did not come ashore. Drill was had by companies in separate places. A company of blue-jackets under Cadet Werlick was drilled in front of the BULLETIN office. The employees highly appreciate the honor and feel benefited by the brief military instruction afforded them through witnessing the maneuvers. When there is a vacancy in the Republic's military staff, apply at this office. It will be cheaper than sending to the Coast.

W. H. Nelson, who is in the drug business at Kingville, Mo., has so much confidence in Chamberlain's Colic, Cholera and Diarrhoea Remedy that he warrants every bottle and offers to refund money to any customer who is not satisfied after using it. Mr. Nelson takes no risk in doing this because the remedy is a certain cure for the disease for which it is intended and he knows it. It is for sale by all dealers, Benson, Smith & Co., Agents for the Hawaiian Islands.

The Fishmarket abounds in flying fish. Boat-loads came in this morning.

In order to make room for an immense new stock of Dry and Fancy Goods, Millinery, Gents' Furnishings and Boy's Clothing, which will arrive shortly, I shall on Monday, July 23d, begin a grand clearance sale. Our prices will positively be so low that you will be ashamed to look elsewhere. There are plenty of ladies in Honolulu who do not wear silk dresses on account of the hard times. But we have some special patterns that we are offering at greatly reduced prices to make shelf room for our new goods. When ladies want society items they look in the society or local columns. When they want bargains they read the advertisements. For those who don't wish silk we have Serges in endless variety. Our Hosiery Department will satisfy the most fastidious, and some of our Laces are simply beautiful and at less than reasonable prices; and our Ribbons are—well, what's the use of going further? A call at our place of business, 514 Fort street, will convince you. I would be pleased to have you read this "ad" next week, as I intend quoting you some prices on Dress Goods, both Silk and Serge, Hosiery, Ladies' Underwear, etc., that will make you think I am constantly beating the Custom House, but a visit will convince the most skeptical that the cheapest place in Honolulu to trade at is J. J. ECAN's, at 514 Fort street.

An Honest Medicine

Rheumatism Cured—Health Built Up. Mr. Churchill, formerly of Churchill & Taylor, surveyors and civil engineers, writes: "I have been suffering from Rheumatism for many years. When I came here I began to be afflicted all over with it."

Rheumatism. And also pains in my back and a general feeling of being used up. My business takes me out in the elements all the time, and I found myself unfit for work. Reading an advertisement of Hood's Sarsaparilla, and learning also that the medicine was compounded in my own State of Massachusetts, I concluded this may be an honest medicine. I took it and am so much improved that I am out and about as usual. R. H. Churchill, M.D.
